OIL REFRESHER

Refresher for UV/Nature oiled floors

Kährs UV/Nature Oil Refresher is a water based maintenance product for maintaining wood and parquet floors. Kährs UV/Nature Oil Refresher gives the floor a protective layer with a beautiful shine.

Application

Remove any dirt or debris that may scratch the surface, by vacuum cleaning or dry mopping. Clean the floor with a solution of Kährs cleaner diluted into lukewarm water or with Kährs Spray Cleaner. Shake the Oil Refresher and pour it onto the surface. Spread it with e.g. a Kährs Mop. Work lengthways on the boards.

Make sure to cover the entire floor with an even layer. If possible, work when you have incoming light.

Drying time is 2 hours. After 7 days the floor will be fully resistant to dirt.

Move your furniture to one part of the room while you treat the other half.

Wait a couple of hours then do the rest.

ARTICLE NUMBER: 710554

TECHNICAL DATA

Contents:	Water, alkyd, acrylic resin
Shelf life:	24 months in unopened container. Store free of frost.
Coverage:	80-120 m ² /liter (UV-oiled floors) 30 m ² /liter (Natural oiled floors)
Drying time:	2 hours
Time to fully resistance:	7 days
Toxicity:	Non-hazardous
Flammability:	Non-flammable
Packaging:	1 liter plastic bottle

Kährs[®]

Note: A floor maintained with UV/nature oil refresher can not be treated with Kährs Satin Oil.

Health and Environment

Kährs UV/Nature Oil Refresher is not classified as hazardous to your health or the environment.

Precautions common for handling chemical products should be taken. For further information, please see the Material Safety Data Sheet.
